KOUDENHORN 8-10

Long-distance swimming.

Length: 33 metres.

120 swimming enthusiast enthusiasts started for the annual 8 kilometres long distance swimming-race in the river IJssel.

Three minutes after the start of the lady-participants, the men plunged into the water.

The swimmers went with the stream, which was very strong because of the high water.

After one hour the finish came in sight.

From the start on Miss Prins from Amsterdam (Nr. 144) swam in front rank.

Winner of last year Gerrit de Bruyn (Nr. 1) won again. He swam the 8 kilometres in 1 hour 2 minutes and 25 seconds.

Miss Prins who arrived 5 minutes later was the first lady who reached the finish.
