

FLASHES

Fleet Air Arm

The ~~theatrical~~ was at home at its Lee-on-Solent

Station to the general public, younger members particularly.

The juvenile imagination must have, ^{picture of 9 as it} soared to untold heights and ~~imagined itself~~ almost in outer space. The display

was on behalf of naval charities. They said there that ^β

never before had so many helicopters been in the air

together. } There was even a brief appearance, for the first time in public, of the D.H. 110.

Then came the helicopter in a new role, as a sort of comedian, only just over the heads of the audience.

Very few people have seen a tiger having a bath. On the outskirts of Novosibirsk in central Siberia a circus tiger enjoys himself every day; no competition ~~wanted or~~ offered....

Margarita Nazarova is Pursh's trainer. Outside working hours she takes him down to the River Ob and a great time is had by both. X Fortunately the tiger plays ball. He's so well trained he's been the star of two films. The other actors let him have the set all to himself.

The Isle of Wight turned its mind ^{from Cowes Week} ~~ammmmmmmmm~~ to the wedding of no less than Uffa Fox; ^{the 58-year-old, yacht-shore} designer having a ~~mmmm~~ engagement at Newport Registry

Office with Madame Yvonne Bernard. After the formalities they both signed on for, we hope, a long and happy voyage. ² Long famous in yachting circles Uffa is ^{now} known to the general public as a friend of the Duke of Edinburgh and the designer of ~~his~~ his craft. Uffa's French is confined to la plume de ma tante; Yvonne's English to I tink your policemen are wonderful, but both understand the fundamental language of the sea, ~~and all that.~~ It looks like plain sailing ahead.
