

## FLASHES

Princess Grace and Prince Rainier were in the spotlight when they arrived at the Atlantic City Race track to see the United Nations Handicap. UNO has many handicaps, but this one was only a horse race. It was run over one mile, one and a half furlongs. Perhaps the former Grace Kelly forgot even Monaco for a few minutes in the excitement of being back in America and watching the favourite Career Boy coming up on the outside, to win comfortably. To all appearances the royal money was on the right horse.

The Broncs didn't have things all their own way at the Pendleton Round-up. One cowboy stayed aboard for the prizewinning ten seconds and even began to look as if he were glued on.... The bulls didn't fare much better than the broncs. Either the riggers are getting too clever or the animals ~~sum~~ have joined The SPCC - Society For The Prevention of Cruelty to Cowboys.

President Eisenhower took time out of the election campaign to relax on his Gettysburg farm. As if he could with three grandchildren about. Young David (8) wore a Confederation cap, as worn by the South in the Civil war. Next day the papers asked, Did that show that Ike's <sup>2</sup> ~~e~~ ~~is~~ wooing the votes of the Democratic South? Couldn't it just be he and the family were having a good time.

Germany's radio-telescope was inaugurated at Muenstereifel. It won't enable the eye to see stars and planets; it will plot ~~tham~~ their position on a sort of radar screen, going enormously beyond the range of the optical telescope. By this means thousands of new worlds have been discovered, giving astronomers a lot to think about and taking their mind off Wasser.

SPORTS BEFORE YOUR EYES...

#### COWBOY FALL OPENER

It's the season for football and rodeos — and the thrills which come when Summer fades and Fall arrives.

For these cowpokes in Oregon's Pendleton Round-Up, headin' for a fall is more like it. If it weren't for the bronc and his good grip, he'd be flappin' and flyin' through the air!

Cowboy versus bull. Mayhem on the hoof, versus endurance and skill. Round and round they go, and where they'll stop, we'd hardly know!

We'll take our rodeo, sitting down! — and so will he.

#### WALKING TO THE OLYMPICS

At Baltimore, they're under way in the heel and toe derby — the National Walking Championship, which is also the official Olympic tryout. The distance is 50 kilometers — about 31 miles — lifting 'em up, and putting 'em down....

By way of comparison, you as an ordinary pedestrian could walk a mile at your normal pace in 12 to 15 minutes. These speedsters do it in well under 7 minutes, with strides some 10 to 16 inches longer than you use.

Number 20, Adolf Weinacker is passing number 30, Rudolph Haluza of New York, who set a terrific pace.

Number one, defending champion Leo Sjogren is also passed by the durable Weinacker, who is an Air Force captain from Detroit. And Weinacker's the winner. Time: 4 hours 38 minutes, 57.5 seconds. He'll walk for Uncle Sam in the Olympics!
