

## PRINCESS LEAVES FOR TOUR

Princess Margaret was accompanied by her mother when she arrived at London Airport. Her Royal Highness is making

20 a 5-week tour in East Africa, where she will no doubt repeat the great success of her visit to the West Indies last year. The first stage of the flight, in the BOAC

Argonaut Ajax, was to Entebbe, Uganda. For the last farewell the Queen Mother accompanied the Princess into

40 the aircraft. Her Majesty spent about seven minutes in the main cabin. She herself had a Viking Aircraft of

60 the Queen's Flight waiting to take her to Aberdeen. Hundreds of people at the Airport now had their last glimpse of the Princess before Ajax took off.
