

LADY PEACE IN NEWFOUNDLAND.

280
fled

The G.B. News 'Plane flying over the ~~black hills~~ of Newfoundland spotted the Lady Peace --- the 'plane in which Harry Richman and Bob Merrill completed the two-way crossing of the Atlantic in record time. Once again shortage of petrol had brought them down and the two pilots were marooned pending the arrival of a mechanic. But as they attempted to effect running repairs they ^{were able to} congratulate themselves on a double flight that will take a lot of beating.

SPAIN.

Aeroplanes continually bombing the key roads to Madrid set fire to fields of wheat and rendered homeless and desolate many innocent victims. A plane ^{was} brought down with its petrol tank riddled with bullets --- but the pilot was Italian, and curiously enough nobody was able to find out ^{which} ~~where~~ side he was on. Now vividly the G.B. News ~~is~~ ^{pour} cameraman has portrayed an infantry capture --- Insurgent troops ~~with~~ rifle and machine gun ^{fire} into the Government defenders --- the defence is on the run but the Nationalists complete their capture and bring back their prisoners roped together. Like cattle --- and some of them scarcely more than children.
