

NAVY WEEK.

375

Portsmouth --- the Navy is in the shop window for the annual displays of Navy Week. With the grand old Victory in the background, sailors and Marines gave a display of efficiency. ~~Of particular interest to tired business men was the physical jinks display. Physical training is a very good way to start off the day --- try this over the bed.~~

RODEO.

Wyoming --- at the annual round up of the dude ranch an exhibition of ride him cowboy looked like an outing of the suicide club. If these are dudes, ~~it'd~~ it'd be good fun watching the tough hombres.

ARCHERY.

Oxford --- Britain is going ahead with re-armament. Archery is becoming increasingly popular, being a kind of long-distance darts. / Our slow motion camera follows the flight of the arrow to the target --- stand back, and let the dog see the rabbit!
