

YELLOWSTONE PARK.

Wyoming --- Yellowstone Park is in the grip of winter. Beginning the first non-political tour of his second term of office, the President paused to appreciate the beauties of the scenery. And the scenery put on a specially good show for the occasion.

VERTAPLANE.

Philadelphia --- another new kind of autogyro, and it's called the vertaplane. It takes off as an ordinary plane, and when it wants to come down the top wing rotates to make an easy landing. It's really practically the same as an autogyro, but they call it a vertaplane to make it sound different.

SALONIKA REUNION.

London --- after inspection by Field Marshal Lord Milne --- a march past at the Cenotaph. It was a reunion of world war veterans who had fought at Salonika --- come together in remembrance of their comrades who laid down their lives.

KINGLSEY WOOD.

The largest block of flats in Europe was opened

Liverpool --- ~~the Lord Mayor, Major Denton, was present when the Minister of Health, opened the largest block of flats in Europe.~~ *in the presence of the Lord Mayor & Major Denton.* The name is Myrtle Gardens, and there seems to be plenty of room for the children. ~~Also plenty of children for the room.~~ Sir Kingsley Wood finished up the day with a ride on the swings. It's a pity we haven't got a picture of Sir Stafford Cripps on the roundabout.
