

HORE BELISHA AND ANTI-AIRCRAFT.

In London, on the Horse Guards Parade, Mr Hore Belisha the ~~Min~~  
 Minister for War inspected new guns and equipment for the Anti-  
 Aircraft Forces. We have seen ~~how~~ <sup>in</sup> the wars in Spain and China  
 how the civilians stand in the forefront of the modern battle-line,  
 For those who would defend our cities, and our women and children,  
 the responsibility is great. Mark these words of Britain's War  
 Minister. The importance of the task of the territorials cannot  
 be exaggerated. London must never be exposed to the hideous  
 fate of Madrid and Shanghai.
