

409
METEORITE.

Adelaide --- if you 've never seen a meteorite, here you are Weighing three tons, it is the largest ever to fall in Australia.

There it goes again.
~~and just to show that there was no deception it gave a repeat performance.~~ Adelaide Museum say that it's worth £1,000.

That's all right for a scientist, but most people will have to be content with an imitation.

SPANISH BRIDGE.

Salamanca --- a picture from Spain that does not show the horrors of war. Military engineers of Franco's army built this railway bridge over the river Jerte to Seville, in the record time of 64 days. If ever the civil war does end, Spain is going to need a lot of people who can build like that.

KINGSFORD SMITH.

Richmond, New South Wales ---the widow, mother and son of Sir Charles Kingsford Smith went to the Kingsford Smith aerodrome for a last look at Smithy's plane, before it was sent to the museum. The little son of the man who blazed a trail in the sky is wrapped in wonder at the old Southern Cross. Pacific --- Atlantic --- Tasman --- Smithy conquered them all to make air travel safer for his son's generation.
