DUCHESS OF GLOUCESTER.

At the ~~the~~ new school building at Hampton, Middlesex the pupils were jumping up and down, partly to keep warm and partly with excitement. For Her Royal Highness the Duchess of Gloucester was paying <sup>them</sup> a visit --- ~~the first public engagement since her recent~~ ~~visit~~ ~~in~~ ~~the~~. A bouquet was presented to the royal

guest who then opened the building in her own delightful manner.

DELBOS. *Some of the officials were then presented to H.R.H.*

In the course of his diplomatic tour of ~~the~~ Europe, M. Delbos the French Foreign Minister met Marshal Rydz-Smigly, Polish military dictator, in Warsaw. Colonel Beck the Polish Foreign Minister was also present. And in the group President Mosciki sat at the right hand of M. Delbos. The two foreign Ministers over a friendly cigarette talked of Colonies among other things --- Poland's need for colonies expressed during the French visit, lends a particular point to these pictures in our week's news of the French aerial tour of their colonies in North Africa. Extensive manoeuvres have been carried out here by both air and land forces --- causing no less interest among the natives <sup>who live</sup> there, than among the strangers who might like to live there.
