

BIRA'S CRUISER.

London --- a Prince's wedding gift to his bride. Built on the Thames, this graceful cruiser was tried out on the tideway before delivery to Prince Bira of Siam. ~~The cruiser's name is I should have to hear a lock-keeper shout that out.~~ Incidentally the London gale seven ruffled old Father Thames.

Down

ROUGH SEAS.

Folkestone --- our Roving Cameraman went to await the return of Mr Anthony Eden from the Continent, but owing to bad weather the ~~Foreign Secretary's~~ boat was delayed. But it's a poor heart that never rejoices, so instead of the Foreign Secretary we got pictures of rough seas. Hope you're not too disappointed.

BLIND FLYING.

Victoria --- the latest miracle of aviation --- it teaches you how to fly without leaving the ground. Well, as long as you know what you're doing we can't grumble. This ground model responds to controls in the same way as a real plane in the air. ~~It is in a dangerous spin,~~ but luckily the worst that can happen to the pilot is that he may be seasick.

Down

LARGEST PLANE.

Essendon --- Kyilla is the largest plane built for commercial flight in Australia. It weighs twelve tons fully loaded, and has accommodation for 21 passengers. With a speed of 200 miles an hour, its mighty engines can scarcely be heard <sup>inside</sup> the soundproof cabin.
