

TAR LORRY.

Wimbledon --- Swerving to avoid a motor car, a tanker full of tar overturned and emptied its contents on the common. Some reports said there were fifteen hundred gallons, some said 3,000 gallons. The driver/only said a mouthful.

AUSTRALIAN CYCLIST.

Melbourne --- Hubert Opperman rode right across Australia/on from West to East a bicycle. He was riding from Fremantle to Sydney --- something over 2,000 miles of plains, deserts and bush. When he got to Adelaide he was three days ahead of the record. When he got to Melbourne he was four days ahead of the record. But when he started out he was only one jump ahead of ~~the record~~ being crazy.
