

EBBW VALE DAM.

Beaufort --- a village in the Ebbw Vale has been in peril of flooding through a crack in the reservoir --- Heavy rains added to the danger of a burst which spelt terror to 4,000 inhabitants, for the reservoir holds three hundred million gallons. Engineers worked day and night to reduce the pressure of water by diverting it, *and now report all's well.* ~~and a situation that might have resulted in many fatalities was happily averted.~~

DARTS.

Darlinton ---Mr Sydney Hall plays darts ~~xxxxxx~~ with his mouth but we have no information as to how he drinks his beer. He's very good at this dart-blowing and he challenges anyone in Great Britain for a stake of £25. Mr Hall thinks nothing of doing a William Tell trick on ~~xxx friends~~ his friends. Whatever would he do to his relations?

MUSOLINI'S FLIGHT.

Rome --- Bruno Mussolini, second son of Il Duce, left on a flight to Rio de Janeiro, by way of Dakar and over the South Atlantic. *of some six thousand miles* The flight was accomplished in record time --- and in the interests of Anglo-Italian friendship, it's good to hear that Mussolini's son chose a plane with a British engine.
