

SON.

Amy Mollison 433

France --- Mrs Amy Mollison has taken time off to join in the motor rally to Monte Carlo -- Are you giving up flying, Mrs Mollison?
OLD CARS.

Indiana --- Here are some cars that will never rally anywhere again --- and if they're going back to flying it'll be with a harp. Aged and decrepit flivvers which have proved a danger on the roads are flung on to the junk-pile and burnt. ^ So the condemned men ate a hearty breakfast of gasoline for the last time --- and went to the hot seat. It may break the owner's heart --- but it's better than breaking his neck.
