

OXFORD AND CAMBRIDGE SPORTS AND EMPIRE GAMES.

Oxford University Sports Meeting was held on their track at Iffley Road. Winners of these events will carry the Dark Blue Colours against Cambridge at the Varsity Sports at the White City. And here at Fenners are the Cambridge athletes. From the ranks of these Universities this year we hope may come many Olympic competitors of to-morrow. And across the world in Australia --- the Empire Games. Crowds on Sydney Cricket Ground, for a feast of athletic thrills. Watch the quarter mile --- most gruelling of all races. Near the finish the two in the two far lanes come up for a near-dead-heat --- our camera stops at the critical point to show how close they are --- the race was awarded to Roberts of England, nearest the camera. That was an Empire record smashed --- and now comes a fine action picture in slow motion. He's Dickenson of Australia --- but this event went to Canada.

120 yards hurdles --- watch the dark-clad Springbok Lavery out for the world's record. Our camera slows down to slow motion --- you can follow every straining movement of muscle and sinew. And a world's record it is --- in fourteen seconds.

The Pole Jump --- a spectacular leap but he doesn't quite clear it.

Here comes the winner ----- A.S. du Plessis of South Africa --- he cleared 13 feet 5 3/4 inches.
