MAJOR FEY.

Major Emil Fey --- he was known as the strong man of Austria. He was founder and leader of the Heimwehr, and he commanded the troops in the civil war of 1934. When Dr Dollfuss was assassinated he was in the room where he died and he was spoken of as a possible dictator in Austria, but later his political career/<sup>lapsed</sup>~~fell~~ into the background. Now in Vienna he has died by his own hand --- a ~~patriotic suicide~~. His wife and son too are shot dead, <sup>while Austria is no more</sup> ~~while Hitler rides in triumph through the streets~~
