441

Events in Spain and Austria have lately crowded China from the ~~world's~~ news --- but here's a tit-bit to show they're still holding that war. The International Police in Shanghai are busy keeping order in ~~that~~ ^{the} great Far Eastern seaport --- ~~keeping the peace in a state of warfare.~~ And here in North China --- Japanese troops close in on Soochow. They say it was the original plan ^{only} of the Japanese higher command to occupy/Northern China --- but Nippon's Army now pushes ^{Southward} ~~on~~ over the Yellow River. ~~When soldiers march in victory, it's difficult even for Generals to say when they shall stop.~~
