

TOBAGANNING.

444

2/5

It is Venice in springtime. But ~~it is also~~ Venice in California, and the local lovelies with nothing much to do have thought of a new way of getting into the water. ~~xxxxxx~~

So much for the tobogganning. But man, of course, has to do something more difficult and dangerous. We have to show the superiority of the sex, and maintain its dignity. ~~1~~

Now some real diving ~~is~~ ----- at North Sydney Swimming pool our slow motion camera gives a study of form from the top platform, demonstrated by the best in Australia,

The Flying one and a half.

Now one of the most difficult of all --- the Isander.

With summer coming on, soon you'll all be doing this --- or something like it. Three times one and a half.

And next --- a flying three times one and a half double jack-knife with corkscrew --- Look out below!

Strewth!
