

HENRY COTTON.

444

Knowle --- Warwickshire has a new golf course in Chadwick Manor and Henry Cotton attended with the Warwickshire champion and others to give it a good send-off by playing the opening round. Here is Cotton driving ~~A~~ and here is Stowe, the Midland Champion. There was a gallery of six or seven hundred people to watch the ~~game~~ <sup>game</sup> --- a surprising number, which testifies to ~~the champion's~~ Cotton's drawing power. It is a most picturesque course --- but many people think that of all the holes the nineteenth has the greatest attraction.

DIVER .

Italy --- Here is an all-steel diving suit; although the weight is considerable the man inside is able to move about quite freely. He is an Italian, and he is out to beat the record for deep-sea descent. He succeeded in reaching a depth of 1,000 feet --- approximately double the <sup>previous</sup> ~~existing~~ record.

TORNADO.

America --- Seven States were struck by a tornado which killed sixteen people and injured hundreds. Roofs of houses were ripped off, a school in Illinois was levelled to the ground, fortunately after the pupils had left. Many were the freaks of the storm. A tyre pierced --- ~~telephone poles flying down~~ and whole streets filled with wreckage. Damage in one town is estimated at a million dollars. But bad as this is, at least it is not so bad as last year's floods.
