LORD CHATFIELD.

from India
The Flying Boat Corio at Southampton brings back to Britain our newly-appointed Defence Minister --- Lord Chatfield, who was formerly First Sea Lord. *He will tell us what's been going.*

WEDDING.

London --- a naval wedding at St Paul's, Knightsbridge. The bride is Miss Constance Street, --- the bride of Lt. Gerald Culme-Seymour, R.N. Altogether a picturesque gathering --- with blue naval uniforms, while the bridesmaids wore turquoise-blue moire dresses and circlets of real flowers.

MOTOR CYCLE TRIALS.

Stratford-on-Avon --- Motor cycle trials for the Colmore Cup. Enthusiastic devotees of the two-wheel shake-up battle their way through snow and water, over hills and bumps, solo and with sidecar. Stratford-on-Avon --- Shakespeare would have called this something nobody else could get away with. But if the secret of a good cocktail lies in the shaking --- how about a sidecar.

BOBSLED.

Lake Placid --- Olympic champions of the bob-sled run compete for the national crown --- and this American run is almost as tricky ~~as~~ as famous Cresta. The four-man sled works up to a mile-a-minute and more --- roaring downgrade in blinding snow --- burning the icy trough, where a hesitation means over the top. Here's the team that won the U.S. title --- and no wonder.
