

KING, AIR MARSHAL BISHOP AND R.A.F.

CONFIDENTIAL

703

Canadian and Polish Airmen were on parade for the King's visit to a Fighter Station in South East Britain. His Majesty inspected them and chatted with many of the pilots who have been shooting down the Nazis. This Polish squadron brought down 80 German planes in one month.

And here at another R.A.F. Station is a distinguished officer from Canada. Air Marshal Bishop was a flying ace in the last war. He won the V.C. and he was feared throughout the German Air Force. In this war he is teaching young pilots to carry on the good work.
