

Roving Camera continued

Coventry - Standard Works

Coventry - where at the famous Standard Works - a new car is coming off the Assembly Lines - the "Standard Eight" - Britain's newest baby car to capture world markets.

~~introduced by the go-ahead chief of the Standard Company - Sir John Black~~

The model was introduced by the go-ahead chief of the Standard Company - <sup>MOTOR</sup> Sir John Black, - as Britain's first ~~road~~ attempt to produce a ~~People's Car~~.

And it's just the <sup>CAR</sup> ~~type~~ for the ordinary man - with its 45 miles to the gallon - ~~and a top speed of sixty miles an hour.~~ <sup>-ON-THE-ROAD-</sup> and a top speed of sixty miles an hour. Peak output will be two thousand a week - though about sixty per cent will go for export.
