

Dog Show

LONDON

Olympia - where they're judging some of the 1400 entries of forty breeds at the Kensington Society's Show.- the cream of the Canine World. BUT THE country-cousin from Yorkshire finds nothing to bark about in the big city...

Highlight of the show is the Fancy Dress Parade - with hats to suit all types. ~~just where we have seen that face before~~ - just where have we seen that face before?

Mini-Sub

California - where they're trying out a new underwater, pedal-driven vessel known as the "Mini-sub". When submerged, the one-man operator wears special breathing apparatus. With a top speed of seven miles an hour, its silent approach makes it an ideal conveyance for frog-men.

A simpler version of the same idea is the "Aquapec" - a form of underwater uni-cycle.

Both craft were originally designed for the U.S. Armed Forces; but ~~no~~ ~~no~~ no doubt they'll soon become the accessories of underwater sportsmen.

Cinque Port Mayors

Dover - where the Barons of the Cinque Ports, of Dover, Hastings, Sandwich, Romney and Hythe - walked in procession ~~to the Maison Dieu (thirteenth century Hall)~~ to hold the Courts of Brotherhood and Gaestling - as the old saying goes.

Last held in the Coronation Year of 1937 - this rare meeting was once again revived, as the Clerk of the Day read the letter of summons to a time-honoured occasion.

Australian cricketers leave

Tilbury - where the Australian cricketers left for home - leaving a treasured, if imaginary, piece of luggage behind them. But Skipper Lindsay Hassett tempered our newly-won confidence with a friendly word of warning. SOUND.
