## England V Wales Rugby

The men of Wales invade Twickenham - content to let the printed word state their challenge to England's Rugby supremacy. And after beating the All-Blacks - it's no wonder that Wales are thinking of that Triple Crown as England - in white shirts - kick off.

And within five minutes - those Welsh hopes seem well founded - as Olympic sprinter Ken Jones goes over - only to be called back. England fans breathe again

But Wales did score when Rowlands followed a kick shead and was credited with a touch-down.

Wales three points up; but England were fighting back - their younger forwards going great guns against the more experienced Welsh pack And Twickenham's first all-ticket crowd were to see great Hugby - when England's back division went into action - and fifteen-stone giant Ted Woodward bull-dozed his way over

The second half - still three points all. Penalty kicks going astray in the blustery cenditions. And during an inspired English onslaught - Woodward crossed for another try...

So it was England 6 - Wales 3 - until five minutes from no-side . Then Rowlands kicked the first goal of the match. Wales were level.

Then England made a last all-out onslaught. ANAXINEXEXEXITAMENTERS AND SCORED THE WINNING TRY.

minute from time - Winn crossed for a try. England x maximum x in x minute from time - Winn crossed for a try. England x maximum x in x minute from time - Winn crossed for a try.

England won by nine points to six - their first-post war victory over Wales at Twickenham.
