Dry Dock launched

A dry dock is about to ~~be launched~~ ^{go down the 18th Mar 54} at Rendsburg, Germany. ~~Unusual launching ceremony at Rendsburg, a dry dock, so perhaps that's why they christened it with the usual bottle of champagne.~~ ^{But despite this unusual type of launching, the dock was christened with} the usual bottle of champagne.

The biggest and most modern of its kind ever built in the German Canal dockyard, it made ^{a rather} an undignified descent to the water, sliding down ~~sideways~~ because of the narrow ~~width of the~~ waterway.

It will now be towed to Hamburg - for use in Germany's premier port.

New Tank

America: The wraps come off a new tank - the T.43 - with its 120 millimeter gun ~~(that is bigger than any other)~~ ~~and the largest ever mounted on~~

The T.43 is claimed to be as manoeuvrable as a jeep - and though it's obvious that it packs a ~~mighty~~ mighty broadside - it's speed is still on the secret list.

Tolworth - Aqualung demonstration

Tolworth: Demonstration of new diving gear ~~called~~ the "Aqualung". In theory compressed air is fed from a container on the back; but in practice - it helps if you're a real bathing belle...

One of the team went down to take some underwater pictures, and this was the result. Wearing the apparatus, which costs £44, you can stay under ~~water for half an hour~~

water for half-an-hour. Just long enough to get her telephone number. Soon, we'll be spending our holidays at Southern-Under-Sea.

Disarmament Conference

London: Minister of State, Mr Selwyn Lloyd arrives at Lancaster ~~House~~ House for the first meeting of the Sub-Committee of the United Nations Disarmament Commission. ^{ALSO} M. Jules Moch of France was among the delegates. ~~The committee is seeking an~~ "acceptable solution" to the problems of disarmament. ^{WAS} MR PEARSON FOR CANADA AND RUSSIA'S MR MALIN
