

St. Lawrence Seaway

America: After thirty years of controversy, the St. Lawrence Seaway Bill has received U.S. Congressional Approval. In the White House, President Eisenhower signs the Bill - the signal for work to start on a giant undertaking...

At the cost of three-hundred and forty million pounds, the cutting of a deep water channel down the St. Lawrence, over 2,300 miles long, will bring Atlantic shipping to the Ports of the Great Lakes..

Tyre Fire

New York: Blazing trouble in the Bronx, A rubber tyre dump that almost overwhelms the fire brigades as they battle <sup>against</sup> black oily smoke and acrid fumes.

No one knows how the blaze started; but the firemen were literally "tyred out" - before they got it under control - without loss of life.

Rm

Argentina

Argentina: May Day celebrations in Buenos Aires - with a huge crowd assembled in the Plaza de Mayo to hear President Peron address the Nation. Signs in the square emphasized the workers long-held affection for the late Eva Peron...

In his address, the President urged both workers and employees to solve their wage disputes by negotiations.

Hatfield

Hatfield: ~~When the first jetliner will land on the cloud and the Mark Three is expected to appear in the skies of the world~~ Interest centres around the third of the famous Comet family, the Mark Three Prototype. Designed to fly longer stages with heavier loads, and with a seating capacity of up to seventy six passengers - this latest Comet will keep Britain in the forefront of jet <sup>air line</sup> ~~passenger~~ travel.
