

Boy's Brigade

Windsor: Led by a Scottish Pipe Band section, Boy's Brigade contingents march to a centenary Camp on the playing fields of Eton.

Among the visitors from eighteen countries are sixteen ~~marking~~ Canadian boys - (while, ~~nearer-home~~) over two hundred have made the journey from Ireland.

And there was a warm welcome awaiting them from Sir Donald Finnemore - the Camp Commandant.

This world-wide Brotherhood ~~has~~ gathered at Eton to celebrate the centenary of the birth of their Founder - Sir William Smith.

So let's hope that international friendships will ripen in sunny intervals between the showers.

Speed Boats

Florida: A new way of taking a buggy-ride. The old one-horse sleigh is harnessed up to a new partner - a sea-horse with plenty of "gees" under the bonnet.

Gid'up then! Time to go. It may not be quite so romantic as the old "clippety-clop" type of travel; but boy - it does move!

Malaya

MALAYA Lincoln Bombers of British and Australian squadrons struck the first blow of "operation Termite" - (the biggest air-ground operation ever launched against the Communist Terrorists. ~~and~~ 75 tons of bombs were dropped on jungle hideouts.

Then - before the Communists had recovered - paratroopers were dropped in the bombed areas. A new and successful action designed to smash terrorist concentrations, ~~in the area~~.
