Motor Cycle and Cycle Show

London: To the annual problem of choosing between powered and pedal travel, the Cycle Show adds a new poser. How does the ~~Motor Scooter~~ Motor Scooter balance on the tight-rope without stays ^{OR} supporting wires? Meanwhile, for cyclists, the "King of Pedal Pushers," (former world champion Reg Harris) demonstrates the machine that carried him to so many international triumphs.

At the other end of the scale, the champions of the future can speed safely round-the-block on this "learner-cycle," fitted with back-wheel stabilisers.

Among exhibits from six continental countries is ~~an~~ an autocycle that sells for just under sixty pounds. ~~But for some people, pushing is a "bare" necessity.~~ BUT FOR SOME PEOPLE, PUSHING IS A "BARE" NECESSITY.

Going through its paces on the open road is ~~the~~ ^A three-wheel motor scooter that combined top-line performance with all-weather protection. Built by a famous ^{GERMAN} aircraft company, this ~~mini house~~ pocket motor-car does 123 miles to the gallon.

Tower Investiture

London again - an investiture at the Tower of London, with thirteen year-old Charles Ilsey receiving the British Empire Medal - which his Father had won for efficiency in Korea.

The investiture was held by Lt.General Sir Francis Festing, on behalf of the Queen. ^A military Policewoman, S/Sgt. Joan Mansell, received the British Empire Medal for conspicuous services during the outbreak of terrorism in the Suez Canal Zone, three years ago.
