Guided missile

From America come these pictures of an anti-aircraft guided-missile test -
on board the U.S. Battleship "Mississippi" - somewhere at sea...

Known as the "Terrier" - this supersonic rocket "hounds-down" its target -

~~in this case - a ^{piloted} plane.~~ And the U.S. Navy's first anti-aircraft

~~in this case - a radio-controlled plane.~~
missile proves a deadly killer. /
