Cadets at Dartmouth

Dartmouth: During the goodwill visit of the Russian squadron, one hundred Cadets were warmly welcomed to the Royal Naval College, where they shared for a day, the life of a British cadet...

The Academy, with its ninety-two years of nautical history, made a deep impression on the visitors - who also joined training cruises on the nearby River Dart.

The Russians also ^{participated} took part in Divisions (~~as they are called~~) - when their leader, joined Captain Crawford, the Captain of the College - ~~and~~ ~~the Russians also~~ in taking the salute..

Tampico floods

Mexico: More tragic pictures from the flood-devastated city of Tampico - where rescue launches battle against the ever-rising waters.

Helicopters, from U.S. Carriers lying off-shore, continue their round-the-clock help to the stricken inhabitants, who survived the fury of

Hurricane "Janet" - only to be trapped by the unprecedented floods.

Now after days of privation, many are hauled to safety - away from the ~~nightmare~~ nightmare of Tampico's ~~day~~ trial and tribulation.

The Queen returns

London: After a night journey from Scotland, the return of the Queen to Buckingham Palace, after her two-month stay at Balmoral - was an occasion of ^{even} more than usual interest.

With the Queen were Prince Charles and Princess Anne - looking ^{eagerly} forward to the reunion with their Father - who had flown back from Germany ~~the~~ ~~previous evening.~~
