What a lot of fuss over a mynah matter. It was an expansive fuss for Mr. John Luttner of Esher, Surrey whose Indian mynah bird brought ~~cost~~ him a £2 fine and 40 guineas costs when his neighbours took him to court for letting it cause a nuisance. It's one of 22 eastern birds Mr. Luttner keeps in his private aviary....

And they're not his only pets. Even the rabbits sit up and take notice when the mynah, who's a major when it comes to making a noise, gets going.(SOUND)

Mr. Mynah's quite a mimic. This time it's the cuckoo that's getting the bird.(SOUND)

And he just loves a good, oldfashioned song.(SOUND)

Got a cough? Well that's only a mynah irritation! - Ouch, sorry! (SOUND)

The Luttners even have a butler for the bunnies.- Talk about putting your head in the Lion's mouth.

It's certainly a well trained household...Except for that mynah.

He just can't resist a pretty face.(SOUND)
