GET THE COKE HABIT-TRAILER

1, V.S. In an ordinary home a family receives instruction over the radio on how to order their coal. It tells them to get 10% coke so as to leave enough coal for industry. It tells and shows them how to make a fire and use coke. 130  
 MUTE AND TRACK NEGATIVES NATURAL AND SYNC

COMM.

Aircraft factories need more coal to turn out more bombers. More ships bringing more supplies and more coal. With all these demands on coal it is up to the householder to economise. Now don't get excited madam. The government are asking you to do two things, order your coal has soon has possible and take ~~ten~~ 10% of it in coke or anthracite. You light the fire in the ordinary way with coal using small lumps. Thank you. When it's going well you add coke or anthracite to the top and back, thank you. Be sure to keep the underside of the fire clear of ash to get a good draught, there you are. Remember, order it now and be sure to get 10% coke or anthracite, good burning, nice day. Sorry I forgot.
