WHEN MUSSO MET HITLER...CAPTURED ENEMY PROPAGANDA FILM.

Hitler's boy friend, the deflated Mussolini, was carted off, to Germany by plane following his rescue by Nazi paratroops. Captured enemy films show how, after being kept a prisoner in Central Italy, he was whisked off to become a Nazi stooge.

At Hitler's headquarters the comedy of errors reached a peak of buffoonery as Musse tried, oh so hard, to look his former self in front of Mr.Schieklegaber.

A kiss for Papa. Mussolini's son who is with the Nazis held back on a crack about how well he thought he locked, and the fraudulent head of a fake fascist regime shook hands with Ribbentrop. What a parody of those former meetings. One arrogant career which has hit the ignominious bottom.

Yes, there you have them: Hitler, Ribbentrop and the flat tyre.
