CHINESE TAKE TENCHUNG ON BURMA ROAD

The Jap hold on the ancient city of Tenchung which has obstructed the joining of the Ledo and Burma Roads is loosened by bazookas, mortars and other modern equipment in the hands of the Chinese. For five weeks, they have fought inch by inch against the embattled garrison.....with scaling ladders they storm the city walls.

Through gaps in the ruined wall come the wounded. Casualties are heavy.

All the two thousand Jap defenders were killed or captured....China fights back....and fights back hard....!
