

A HORSE FOR BULL HALSEY

When U.S. Admiral Bull Halsey planned to ride Emperor Hirohito's white horse, he started something. The Admiral missed his chance with the Emperor's nag but New York's "Saints and Sinners" club got him a substitute for the lunch they gave to celebrate the Bull's return.

The club puts on a special welcome for the guest of honour. A lot of gold braid and no High C.

SOUND

For the pay-off, the Bull gets his badge of membership. A good-humoured gag in honour of America's naval hero.
