

MISS AUSTRALIA ARRIVES

Australia's most beautiful girl, Miss Rhonda Kelly, has arrived in this country.

MISS KELLY

"On the eve of my departure I would like to thank everybody in Australia for all their kindness in this last few months. I would like to say I'll do my very best to uphold the tradition of my beloved country while I am overseas."

With her mother's help, Rhonda packs for a visit to England, part of the prize for being beautiful. One of the many frocks Miss Kelly will wear overseas. It's Australian made, and was specially designed for her. Her luggage is marked with her new title.

Her stockings are silk. In England her clothes will be all wool - just in case the forecast predicts a hot spell.

She greets her first glimpse of the Old Country.....And is greeted in return by the dockers, with approval....The first thirteen thousand miles of her trip are over. Miss Australia 1946, is welcomed by members of Australia House. After her visit here, she goes on to America, which will include, no doubt, a look at Hollywood. And Hollywood may do some looking too.
