NUREMBERG

Nuremberg. For Pathe News, the execution of eleven Nazis posed the year's most controversial issue. Should we obtain and screen the official film of the hangings. This gruesome record pictures the final act in the twentieth century's greatest drama. We are fully conscious of the responsibility a newsreel bears in this grave matter. In no other medium could such pictures be placed before you, the men and women who finally condemned the Nazi chiefs. Therefore, in the nation's press and screens we asked for your opinion - should we show pictures of the hangings or should we not. Here are the first of your replies. Of 980 letters addressed to Pathe News, London 950 said "You must not screen the execution pictures." We accept your opinion, and questions in Parliament have confirmed it. Let us forget Nuremberg; but let the Germans remember.
