TEEN-AGE FASHIONS

This is your fashion reporter, just back from a Fathe preview of school-girl glamour. Behind the scenes, I found teen-age show-girls doing a last minute check up with Peeping Felly taking a look out front. For mothers, here's a friendly tip. You're going to get a shock next spring from all this teen-age glamour. Here, for instance, is a coat and hat in stone velour with contrasting red on lapels, hat and basques.

This is a spun rayon dress; white ground, trimmed in blue and red. Now, a tip for summer sports. Cool, white sharkskin. Feature is the delightful pleated skirt. And for a spot of youthful sophistication scarlet beach trousers. And last of all, for special occasions, this blue taffeta model with square neckline and full skirt.

In all there were a hundred models - so bang goes next year's coupons.
