WAR IN THE EAST

Two years after the end of the war, this is happening. The year is 1947, the place - Indo China, where French troops are in action against Annamese forces.

Trouble began in December, when nationalists of the Viet Nam movement attacked the French Garrison. The French withdrew. Hanoi, the capital, was declared in a state of siege. Heavy reinforcements have been sent, and the French have gone over to the attack. Innocent people are once again being killed and wounded. Civilians are homeless. One would have thought the world had had enough of war.

From Palestine yet another bomb outrage. District police headquarters in Haifa are blown up by Jewish terrorists. The bomb was discovered in a police car outside the headquarters three minutes before the explosion. The attack occurred in Haifa's busy main street.

While this continues full world peace remains an ideal.
