America reports on newest 'plane

Our New York air correspondent reports on the American Army's newest aircraft.

London Airport

At London' Airport, Pathe News reporter meets the incoming 'plane from America. Aboard was speculated Sir Wilfred Eady home from vital dollar talks in Washington. Civil Servant Sir Wilfred was cagey when our reporter pressed him for a comment on his visit - but he did eventually disclose that we have not asked for another American loan.

A few minutes later at the formal Press conference our reporter listened in to this.
