SPEECH

We'd better hang together ~~or~~ assuredly we'll hang separately - and has that no application today among the democracies of the world. Is it difficult to see our community of interest? That if aggression, human enslavement, is not checked then it is always a disease that spreads with epidemic speed. Of course we have a community of ~~interest~~ ^{interest} and democracy better hang together and that's exactly what we, this great nation and its leadership is trying to say abroad. and to get us all to see that it is in this co-operative effort in which democracy believes that true salvation of all Democracies everywhere because none of us can live alone.

ORIG 18. R.
