Story : GRAPE GATHERING IN THE REGION OF "CHAMPAGNE".

Competition : exclusif

Date : September 26th, 1948

-:-:-:-:-

It is now the moment in of the grape-gathering. We are here, in the small village of CREMIERES, where the picking of the grapes occupies all the villagers.-

With big baskets, men, women, old or young, children, all walk towards the vine-yards and start the crop.-

The grapes tumble into the huge basket which receives the contents of all the small ones.

A moment of rest, it makes you hungry and...thirsty to work so keenly..

The pressing of the first baskets of grapes takes place. A young man is just sipping the first "juice" as they call it.

This will make the reconforting wine that will warm us up during the cold winter days??.
