USED STORY
UNUSHD

1. L.V. Beasley seated at table.

4

2. M.V. Speech.

Australia has 7 million people; Britain has more than 48 millions. This is a very big difference and Australia feels that the excess of population in Britain should be redistributed among the other countries of the British Commonwealth. In this regard Australia offers the greatest opportunity to any new citizens.

45

3. C.U. Speech

We want to increase our population by many millions by the end of this century and we want as many as possible to come from the British Isles. We believe this will help both our countries. We are certain that it will strengthen the British Commonwealth of Nations as a whole.
