ONE MINUTE NEWS

S. Dakota

America's latest army tank gets the once-over in South Dakota. So easy to operate that anyone can drive it, it's tested by a young secretary, after only 15-minutes training. She demonstrates the machine's manœuvrability by turning it on a small coin, while its predecessor, the General Sherman of World War II, is forced to make big circles.

Named "General Patten" - after the late soldier who was nicknamed "Blood and Guts" - this superpowered machine is in a class of its own as a climber, and leaves the Sherman far behind for speed. It can bounce through no-man's land and make you think you are riding on glass.

Wolverhampton

Wolverhampton, an aeroplane and a modern Santa Claus combine to bring to life a timeless story believed in by youngsters everywhere. Popping down from the sky, complete with presents, the Midlands' Father Xmas gets a rapturous welcome as he drives in state through the city. Although he is premature by more than a month, Wolverhampton goes gay with its benefactor and starts off with a bang a season full of festivities.

To make up for the aeroplane escapade, Santa Claus makes his entry into the Town Hall in traditional style. For 10,000 Wolverhampton children, it's a fairy life come true.

PATTON TANK

Youngson Weist

80

X After fifteen minutes of training, a young secretary prepares to do tricks with the Army's amazing new General Patton tank, so easy to operate that anyone can drive it. In this test of maneuverability at the Aberdeen Proving Ground, she turns the Patton on a dime while the General Sherman tank of World War II is forced to make big circles around it.

X Easily outclassing its predecessor in ability to climb, the super-powered Patton, near camera, speeds up a forty percent grade faster than a Sherman can climb one of thirty percent.

X The General Patton can bounce through a No-Man's-Land and make you think you're riding on glass. The Army's new tank is as tough and powerful as the fighter it honors.
