

JUNE IN JANUARY

Fashion beats the calendar by a clear five months with a parade (at the Dorchester, London), of flaming June's styles in freezing January. This one is a coolie shirt, air-conditioned.

Surprise of the show is Lot 13. A pair of outsize sunglasses that cost more than the dress.

What kind of sportswear will sports' wear? - evidently, brevity's the soul of style. A man may take a different slant on what makes the well-dressed girl, but with all these lovely things in store everyone agrees that all we need now is a summer, with a lot of sunshine.
