

NEW LINER SAILS FOR NORWAY

In Amsterdam, Holland builds her biggest passenger liner ever commissioned for a foreign power - the 16,000-ton OSLOFJORD, future flagship of the Norway-America Line. Her completion brings Holland to fifth place in the world list of shipbuilders.

To slipway five came Crown Princess Martha of Norway and her husband, Crown Prince Olaf, for the royal launching. "God bless this ship and all who sail in her....."

Baptised in bubbles - a notable addition to the world register of luxury liners.
