

VICHY

SOCCKER WITH A DIFFERENCE

When you play football in Vichy, the toss plays a big part. The bull sees to that! It's a real heads and tails affair. His horns are padded - so as not to puncture the ball, of course! - but you want to watch when you're shooting: an outer does you more good than a bull!

Half time - change pants! is the rule in football. Each team plays one half in red shorts. It does make the target more obvious, but at least the bull knows which side he's playing against.

Foul charge my foot! Where's that ref?

We don't know who's playing whom, but the bull's playing a blinder! The score's 22 to 33 ... points, probably - with the bull top scorer!
