C.P.P. WELCOMES FREED LEADER

At Accra a huge crowd cheers as Kwame Nkrumah leaves James Fort prison, freed by the Governor as an act of grace on the eve of the inauguration of the new constitution.

In the recent elections the Communist-inspired Convention People's Party secured 34 out of 38 seats. The Party's policy is self-government now! Already they demand all eight seats open to Africans in the Cabinet. They are prepared to accept office only to further their own aims. What now happens in the Gold Coast may influence all West Africa.
