DRAMA AT KAESONG.

Dramatic films just received from Korea reveal the incident which led General Ridgway to suspend truce talks. A column of red troops, armed with mortars, rifles, pistols and grenades, is photographed by a Pathe News cameraman marching through Kaesong in violation of Red promises that no armed personnel would be allowed in the truce city. Spotting our cameraman, the communist troops try to hide themselves and their weapons in the bushes. But the incident is already imperishably recorded on news-reel film. The Reds' company commander, trying to scare our cameraman away without letting his face be photographed, finally reaches for his gun. We stop the picture to make it clear.

Our cameraman sneaks one final shot, before leaving. Admiral Joy hurries away to report the incident. Until General Nam guaranteed there would be no repetition, the Conference Room at Peace House was boycotted by U.N. negotiators.
