LIST OF SHOTS <i>The Bournemouth, with Lord Sventry aboard and piloted by Retired S/Leader York-Moore, (nicknamed "admiral") with S/Lt. Richardson and Mr Bell ("Ginger Bell") as engineer. Mr Bell is a survivor from R101. The ship was on a testing flight, after having the weight redistributed. The ship cruised nicely around for about 40 minutes then it got caught up on the roof of the gym. No one was hurt but the airship was damaged. It is doubtful if it will fly again.</i>
